

AI Company Quarterly Performance Report

Company: NovaAI Solutions Pvt. Ltd. (fictional sample data for RAG practice)

Period: FY 2025 quarterly review

Executive Summary

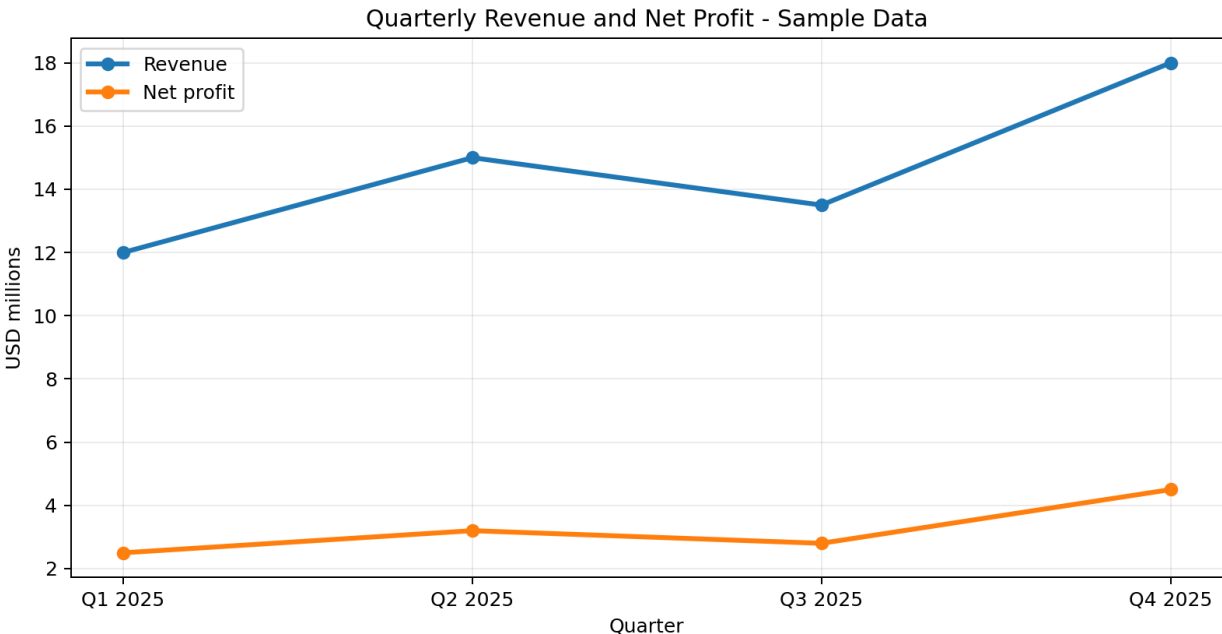

NovaAI Solutions showed strong growth across the year. Revenue increased from USD 12.0 million in Q1 to USD 18.0 million in Q4. Net profit also improved, reaching USD 4.5 million in Q4. The strongest quarter was Q4 because revenue, net profit, and new customer additions all reached their highest values.

This report is designed as a small multimodal RAG source. It contains text, a table, a chart, and suggested questions so you can test retrieval and answer generation from a PDF.
